University Service

2009-2013 Interviewer of Incoming Prospective Graduate Students. In addition to being interviewed by seven faculty members, each prospective graduate student at UCSF is interviewed by a current graduate student, who has access to the prospective student application packet, and whose decision (yes/no/maybe) gets weighed equally with the other interviewers' feedback.

2009-2012 PyMol and Chimera "Boot Camp" instructor. Because incoming students to UCSF have very different levels of biological education and understanding the current graduate students run a 'boot camp' of essential knowledge for incoming students.

2011-2012 Co-Organizer, Research in Progress Seminars. UCSF's Research in Progress Seminar is open to both Postdocs and Graduate students as a forum to present their current and ongoing research.
